Website Algorithm and Flowchart

Algorithm (Step-by-step Execution)

1. Start
2. Load HTML document and apply CSS styles.
3. Display Header (logo + navigation).
4. Display Hero section (headline, description, buttons, social links).
5. Wait for user interaction:
   - If user clicks "Nunua Sasa" → Scroll to Buy Section.
   - If user clicks "Angalia Mafundisho" → Scroll to Features Section.
   - If user clicks "Ongeza kwenye Cart" → Show alert.
6. Show Buy Panel (price, CTA buttons).
7. Show About Section + Testimonials.
8. Show Features Section.
9. Show Buy Section (product details + CTA).
10. Show Footer (copyright).
11. End.
